

Miles Hillier

Product Designer | UX/UI · Design Systems · Brand · Design Leadership

801.636.4291 | mileshillier@gmail.com | linkedin.com/in/mileshillier | mileshillier.com

SUMMARY

Product designer with 15+ years of experience across fintech, SaaS, education, and health tech, working at every level from hands-on UX/UI and front-end development to principal-level design system leadership. Equally at home as a startup's sole designer or as a systems lead aligning multiple product teams. Brings a dual identity as both product and brand designer, a track record of measurable outcomes (\$35M-\$45M annual GMV lift, 67% faster completion, 82% less drop-off), and an AI-forward workflow that moves ideas from research to working prototype in days instead of weeks.

CORE SKILLS

Design: Product strategy, UX/UI, interaction design, design systems, accessibility, product discovery, design research, usability testing, workflow prototyping, brand and identity systems

Leadership: Cross-functional leadership, design mentoring and coaching, stakeholder alignment, system governance and contribution models

Tools: Figma, FigJam, Figma Make, Storybook, Notion, Airtable, Jira, Linear, Claude, Claude Code, Cursor, ChatGPT, Perplexity, Midjourney

Code literacy: HTML, CSS, React, Tailwind, TypeScript, Vite

EXPERIENCE

Product Design Lead · BurbleNeuro Sep 2024 – Present

- Lead product, brand, marketing, and web as a cross-functional team of one for a regulation-infrastructure platform for neurodivergent children built on a patented methodology.
- Designed a neurodivergent-friendly visual identity and full website rebrand, creating sensory-considerate experiences for children, families, and practitioners.
- Ran a platform audit and cost-reduction strategy, owned investor communications, and operate as an AI-augmented product org covering research and content gaps a full team would otherwise fill.

Principal Design Consultant · Independent Jan 2020 – Present

- Subject matter expert for AI testing and certification within the education system.
- Acting experience lead for a physical and digital product for children.
- Contract support for design systems, UX strategy, product, and e-commerce projects.

Principal Product Designer · Seek Feb 2026 – Apr 2026

- Designed for an AI product for cross-product insight discovery, helping customers turn data on hundreds of products into contextual reporting on product line performance and market position.

Contract Product Designer · Vega Aug 2025 – Sep 2025

- Modernized the Vega Events design system: audited the component library and consolidated inconsistent styles into a unified, scalable system.
- Migrated the design workflow into Figma Make to streamline handoff and speed up production.

Principal Product, UX/UI Design System Designer · Hexure Feb 2024 – Jun 2025

- Consolidated four quoting tools into one unified platform with a shared design system adopted by six product teams.
- Led end-to-end product design across multiple teams and departments for internal and customer-facing initiatives.
- Partnered with PMs to define user needs, with engineering on handoff, and with sales and leadership to align design direction with business goals.

Senior Product Designer · Progressive Leasing Sep 2020 – Jan 2024

Merchant Platforms (2023 – 2024)

- Designed internal tools and services for 100+ merchants and internal teams, improving onboarding speed by 30%.
- Led the return policy redesign, cutting user task time 40% and support requests 25%.
- Standardized reusable components and patterns with engineering, reducing design debt.

Application & Customer Architecture (2020 – 2023)

- Reframed a single-flow fix into a universal loan application after finding 70-80% field overlap across the company, driving a \$35M-\$45M annual GMV increase.

- Cut completion time 67% and increased successful submissions 52%, validating every simplification with compliance and piloting before full rollout.
- Supported and managed a design team through a restructure, converting redundant features into shared enterprise practices.

Principal Design System Lead · Meltwater

Jan 2022 – Nov 2022

- Redesigned design system architecture (component organization, naming, handoff documentation), reducing design-to-dev misalignment.
- Built a cross-functional contribution model so other departments could co-own and maintain the system.
- Coached product designers across teams on Figma best practices and improved adoption through documentation and onboarding, shortening new-hire ramp-up.

Product Designer & Brand Manager · Woolly Inc.

Nov 2018 – Sep 2020

- Increased brand speed-to-find ambassadors 70% through improved platform workflows.
- Defined product priorities for the core platform, led brand direction, and created pattern libraries aligning design and development.

Design Lead | Product Designer · Rentler

Jul 2017 – Nov 2018

- As sole designer, reduced account-creation drop-off 82% through research-driven onboarding and account flow redesigns.
- Simplified the landlord experience across listings, applications, screenings, messaging, and payments.
- Created the style guide, pattern library, sales decks, print collateral, and swag.

Senior UX/UI Designer · Imagine Learning

Sep 2015 – May 2017

- Designed management tools and reporting dashboards with instructional designers, teachers, and district admins to increase system use.
- Led a team of PMs, developers, and QA through the reporting tools rollout across multiple audiences.

UX Designer & Front End Developer · The Church of Jesus Christ of Latter-day Saints

Jun 2012 – Sep 2015

- Designed online tools for Mormon.org and led a moderation and admin tooling initiative.
- Built a fully responsive, internationalized front end for JustServe.org and Mormon.org, and consulted on campaign sites.

Earlier Experience

2006 – 2012

- **The Active Network**, UX/UI Developer: event-tech builds for HP, Bentley, RIM, RSA, and Symantec.
- **Heritage Web Solutions**, Designer-Developer to Team Lead: cut the active ticket queue 83% and increased enhancement sales 62%.
- **StoresOnline / Crexendo** and **Utah Valley University**: e-commerce, marketing, print, and web design.

INDEPENDENT WORK

- **SpeckFashion**, Co-Founder (2020 – Present): brand strategy, e-commerce design, and digital merchandising for a storytelling brand celebrating Pacific Island heritage.
- **AI-assisted prototyping**: build working coded prototypes independently to validate concepts before committing engineering resources, such as Tend, a relationship health tracker tested with a full usability test plan.

EDUCATION & CERTIFICATIONS

B.S. Computer Science, Digital Media · Utah Valley University

E-Commerce · Tangible School

Certifications: Product Management Basics, Human-Centered Leadership, Crucial Conversations, Crucial Accountability, Giving and Receiving Feedback

Languages: English (native), Marshallese (limited working)
